The art of design, the science of acoustics.

Driven by function and quality, our products blend the highest design principles with the latest digital audio technology, each designed to leave a lasting impression and to stand the test of time.

Founded in 2004 in the small market town of Lanark, Scotland, REVO is a pioneer in digital radio and audio streaming and the recipient of multiple RedDot and iF product design awards. Since mid-2020, REVO is a proud part of German TELESTAR-DIGITAL GmbH's brand portfolio.

REVO products are sold in 20 countries worldwide.

Chalet Shooting

In Spring 2022, we had the opportunity to restage the REVO SuperSeries in a luxurious environment. An exclusive and beautifully furnished chalet in the Vulkaneifel served as stage for the professional photo shoot.

Originally planned as an experiment, the first sighting of the raw material exceeded our expectations to such an extent that we instantly decided to use the footage for the production of a new edition of this brochure.

The stunning aesthetics and timeless design of our REVO SuperSeries radios make them blend seamlessly into almost any type of living ambience. We hope you enjoy reading this brochure as much as we have enjoyed its production.

SUPERSIGNAL

SUPERSIGNAL

"Visual appeal and superb audio ability mean the SuperSignal is a radio to be reckoned with."

American Walnut & Silver Anodised Aluminium

SUPERSIGNAL

SuperSignal shares the functionalist design philosophy and uncompromising quality ethos that is our hallmark, ensuring that it is truly a product without equal in the compact digital radio category.

SuperSignal is equipped to receive DAB/DAB+ broadcasts, as well as traditional FM with RDS. Bluetooth® support is also included, meaning users can wirelessly stream music from their iPhone, Samsung, Windows Phone, Blackberry or other Bluetooth enabled device, including laptops and tablets – with no physical docking necessary. SuperSignal includes sophisticated alarm clock functionality including dual alarms, Sleep and Touch-Snooze activated by simply touching the radio's aluminium grille.

SuperSignal's wooden cabinet is clad in a choice of furniture-grade American walnut veneer or premium quality matt paint finishes, while anodised aluminium and mild steel components provide a reassuringly tactile quality. A detailed graphical OLED display and joystick control add a touch of modernity, while patented audio electronics and BMR driver technology deliver 12W of clear digital audio with clarity and deep rich bass.

- ▶ DAB/DAB+ and FM with RDS
- ▶ Bluetooth® streaming

- ▶ BMR flat diaphragm loudspeaker
- ▶ 12 watt via Class-D amplifier

- ▶ Alarm clock with Sleep & Snooze

..... SUPERCONNECT

Functionalism meets craft and technology, a next-generation audio device that beats at the heart of your musical ecosystem, providing whatever soundtrack you need. Radio from around the globe, access to your personal music collection or an almost limitless supply of songs from the world's leading music streaming services. Thanks to the inclusion of UNDOK technology, music can be wirelessly distributed to other compatible devices in your home to establish a sophisticated multiroom audio environment, controllable via an app for iOS or Android devices.

SuperConnect is equipped to receive a wide range of digital radio standards including DAB, DAB+, FM with RDS and wi-fi internet radio - providing access to over 36.000 stations from around the world. SuperConnect's ability to communicate with external devices and services is unrivalled. Wireless lan and Bluetooth technology enable wireless music playback from smart-phone or tablet in high quality and streaming services like Spotify, amazon music or Deezer provide up to 100 million songs in digital quality and can be played directly with the REVO SuperConnect.

SuperConnect is available in three distinct colour combinations, each with an all-wood cabinet, anodised aluminium and mild steel facia and backplate. A graphical OLED display and joystick control add a touch of modernity, while patented audio electronics and BMR driver technology deliver 15W of clear digital audio with clarity and deep, rich bass.

- DAB/DAB+, internet radio and FM
- Music Streaming & Network Audio

- 15 watt Class-D amp & BMR driver
- iOS and Android control app

..... SUPERCONNECT STEREO

The REVO icon reloaded in stereo: the SuperConnect Stereo is the next evolution of the expression of REVO's design and engineering philosophy, and the current state-of-the-art of our product design and development. REVO's core dogma of functionalism meets craft and technology culminates in a next-generation audio device that beats at the heart of your musical ecosystem, providing whatever soundtrack you need. Radio from around the globe, access to your personal music collection or an almost limitless supply of songs from the world's leading music streaming services.

The SuperConnect Stereo is equipped to receive a wide range of digital radio standards including DAB, DAB+, FM with RDS and wi-fi internet radio – providing access to over 36.000 stations from around the world. But the music doesn't stop there – its ability to communicate with external devices and services is unrivalled. Wireless lan and Bluetooth technology enable wireless music playback from smartphone or tablet in high quality and streaming services like Spotify, amazon music or Deezer provide up to 100 million songs in digital quality and can be played directly with the REVO SuperConnect Stereo.

The SuperConnect Stereo is crafted using the finest materials and components, its all-wood cabinet with anodised aluminium and mild steel fascia and backplate complement its advanced electronics beautifully. A detailed graphical OLED display and joystick control add a touch of modernity, while patented audio electronics and driver technology deliver 30W of clear digital audio with clarity and deep, rich bass.

- DAB/DAB+, internet radio and FM
- Music streaming and network audio

- 30 Watt Class-D amplifier
- 2 BMR drivers for best stereo sound

- Bluetooth®
- iOS and Android App control

American Walnut & Black Anodised Aluminium

SUPERCD

SuperCD combines the widest possible array of functionality and audio format compatibility to create the ultimate one-box music system. Blessed with the timeless good-looks and material quality of its SuperSeries siblings, SuperCD appeals to both traditionalists and technology enthusiasts alike.

Access to tens of thousands of radio stations from far and near, multi-format CD playback, an almost limitless supply of audio tracks from Spotify and high quality wireless Bluetooth streaming, all controllable via a specially designed app for iOS or Android devices.

SuperCD is equipped to receive a wide range of radio standards including DAB, DAB+, FM with RDS and wi-fi internet radio – providing access to over 36,000 stations from around the world. A vertical slot-loading CD player sits at the centre of this design, catering for followers of the ever-popular physical music format. Wireless lan and Bluetooth technology enable wireless music playback from smartphone or tablet in high quality and streaming services like Spotify, amazon music or Deezer provide up to 100 million songs in digital quality and can be played directly with the REVO SuperCD.

SuperCD is hand-crafted using the finest materials and components, its all-wood cabinet with anodised aluminium and mild steel fascia and backplate complement its advanced electronics beautifully. A detailed graphical OLED display and joystick control add a touch of modernity, while its twin 3.5" BMR speaker drivers deliver 40 watt of room-filling digital audio, rich in bass, clarity and detail, with an expansive sound field - a hallmark of our SuperSeries range.

American Walnut & Silver Anodised Aluminium

..... SUPERSYSTEM CD

With the SuperSystem CD, REVO takes the next evolutionary step. The 2.1 music system combines the award-winning "REVO-esque" industrial design, unique sound properties and the use of the highest quality materials and components with the latest technology that digital radio has to offer today.

The radios' possibilities are enormous: a huge range of radio stations from all over the world, playback of CDs and digital sound carriers or an extensive range of music streaming services - you name it: the SuperSystem CD offers it all. Speaking of radio technology: thanks to DAB+ and VHF/FM reception via antenna, you can access regional and national offerings, plus another 36.000 stations from all over the world via internet radio. Convenient features like Bluetooth, UPnP and a music streaming service portal expand the radios' portfolio further. When it comes to operation, REVO is consistently following the path into the future with the SuperSystem CD. The large 5.5" HD display shines in brilliant 4c quality and has touch properties that make controlling the music system an immersive and intuitive experience. In addition, the radio can also be operated in the classic way by using the remote control or via a smartphone app.

When selecting the materials and components for the SuperSystem CD, we placed great value on quality and exclusivity: we use the best wood, anodised aluminium, sheet steel and glass for the housing. Two 3" BMR loudspeakers and an active 5" subwoofer, in combination with the Class-D amplifier and digital sound processor, deliver up to 120 watts of room-filling, digital sound with razor-sharp highs and a deep, rich bass.

- ▶ 2.1 Music system featuring CD player
- ▶ DAB/DAB+, internet radio and FM as well as music streaming and network audio
- ▶ 2 x 3" in 2 way BMR flat transducer and 2 x 2 Tweeter, 1 x 5" in 60 watt subwoofer
- ▶ Digital sound processor and next-level equalizer for excellent sound properties
- ▶ 5.5" HD touchdisplay, Dual Band WiFi, Bluetooth® 5.2 (Send & Receive)
- ▶ iOS and Android app control
- ▶ Highresolution Audio

2009 | 2011

"Not many radios we review manage to impress on so many fronts... design, ease of use and sound quality - the REVO has it all. Super by name, Super by nature."

"The REVO SuperSystem is exactly that - a super system for listening to pretty much anything you like."

"The REVO SuperSignal is a brilliant bedside radio. The Bluetooth tech is well implemented and the sound quality is consistently excellent."

"REVO's got a near-flawless record when it comes to home audio"

"A superb sounding radio that covers all the bases and more. Five Stars & Best Buy"

"The SuperSystem is the one-box unit that manages to get closest to achieving the sound of a dedicated separate speaker system in terms of scale and impact."

"SUPER-CHARGED - Tune-in, listen-up... and let the music wash over you"

"SuperConnect's strengths are many... we give it our unreserved recommendation."

"Visual appeal and superb audio ability mean the SuperSignal is a radio to be reckoned with."

SuperSeries Acoustics

The award-winning audio characteristics of our SuperSeries products are the result of a considered blend of the finest electronic, acoustic and software design. The finest audio components, all-digital technology, cutting-edge sound modelling techniques and a carefully engineered bass porting system combine to deliver category defining performance.

BMR

BMR (Balanced Mode Radiator) speaker drivers utilise flat diaphragm transducer technology and combine the performance attributes of a flat panel speaker with the pistonic movement of a conventional loudspeaker, resulting in a high performance compact drive unit that develops wide dispersion and an expanded sweet spot.

EQ

Our engineers utilise advanced sound modelling techniques to design the award-winning sound profiles used in our SuperSeries models. In tandem with our custom hardware design, our proprietary EQ configurations develop a warm open sound with clarity, detail and deep rich bass - free from coloration and distortion and benefiting from an expansive sound field.

CABINET

A hand-crafted wooden cabinet has been selected for its superb acoustic properties, no other material provides the deep foundations of great audio performance like wood.
